

BRITISH ASIAN TRUST
TRANSFORMING LIVES TOGETHER

BRITISH ASIAN TRUST

Over the last four years, EdelGive has been a resource partner to the British Asian Trust. EdelGive has been primarily involved in helping BAT deliver its vision by identifying good partners to engage with, keeping in line with BAT's strategy for programmes in India.

The British Asian Trust was founded in 2007 by HRH The Prince of Wales, leading British Asian entrepreneurs and business leaders to tackle widespread poverty and hardship in South Asia. BAT supports sustainable solutions that enable people to truly unlock their potential and have already touched the lives of more than 4 million people.
