

# Basic HealthCare Services (BHS)

Basic HealthCare Services (BHS) was established in 2012 with a focus to provide high-quality, low-cost primary healthcare services for vulnerable communities in Rajasthan. They run Amrit Clinics in tribal and underserved areas providing preventive and promotive healthcare services and run a Primary Health Centre (PHC) in partnership with the Rajasthan Government.

- Footfall of over 1,76,000 patients at the Amrit Clinics and PHC with more than 50% women accessing the healthcare system
- Over 6,000 pregnant women received healthcare services, with over 1,700 institutional deliveries conducted
- Over 1,000 patients received TB treatment
- Over 250 children benefited from Phulwaris (day-care centres)
